

# LONE GULDBERG MAOR MIKKELSEN

Skovridergaardsvej 32, 2813 Virum, Denmark | kmc144@alumni.ku.dk | +45 28100686

**GOAL** | To dedicate my time and skills to Holocaust research using digital methods.

**QUALIFIKATIONS AND TALENTS** | All through my studies I have had focus on digitalisation, Big Data and Visualizations – where possible in Holocaust research as this is my big interest. Studies combined with my long experience with IT has equipped me with a very large tool-box (Several databases, Excel, Tableau, Import.IO, GrassGis, ICR's and many others), that allows me to use data in many different ways. The combination of digital visualizations and research is new and offers new ways of looking at the history – this is my force.

**WORK EXPERIENCE** | During the last 30 years, I have been working as a consultant, offering support and advise in information technology - and digital management to the Hotel Industri. Mainly in Denmark, but also in Israel.

**EDUCATION** | *The Royal School of Library and Information Science, University of Copenhagen:*

## **INFORMATION SCIENCE AND CULTURAL COMMUNICATIONS.**

**BSc. in 2016. Grades - Danish weighted average: 9,4**

**PORT FOLIO** | During the winter 2016, I joined a Data Sprint study/research group initiated by the Royal Danish Library – to produce new digital ways to present newly digitalized materials from the Library, dealing with the Period of Danish ownership of the West Indian islands (today the US Virgin Island) To see the result presented by my partner and I, please follow this link: <https://goo.gl/nIHnc7>

In another example of my work I used Google Ngram to argue, that the myth telling, that during the first years after the war the USA did not deal with the Holocaust like the European countries, was in fact a myth. Please see interactive visualization here: <https://goo.gl/l351s4>
